

# ADAPT. OVERCOME. TRANSFORM.

Pan-Asia Risk and Insurance Management Association
A not for profit professional association for corporate risk
and insurance managers across Asia Pacific

APAC remains the region with the highest growth<sup>1</sup> and also the region with the highest risk<sup>2</sup>

Risks are often not managed well<sup>3</sup> and emerging risks add towards an increasingly complex & uncertain landscape<sup>4</sup>

APAC risk managers are given the challenging task of protecting & building up the resilience of their organisations<sup>5</sup>

Organisations are recognising the value of good risk management & expect more from their risk managers<sup>6</sup>

Risk managers need to continually educate and equip themselves<sup>7</sup> to stay relevant and informed

PARIMA provides a common platform for APAC risk managers to interact, learn & strengthen their risk practices<sup>8</sup>

"Proper risk management increases protection and adds value to the organization, contributing to its sustainability. PARIMA supports organizations for better risk management practices, and keeps them on the lookout for the latest relevant issues. With its wide network in APAC and members coming from multiple disciplines, it allows risk managers such as myself to connect with and learn from many different industries, countries and expertise."

"I highly encourage Risk Managers to join PARIMA. PARIMA gathers risk professionals which speak of the same advocacy, promotes best practices, and have that mutual and authentic discussion of risk issues and trend which makes it great. It is a recognized risk community with a collective passion to bring everyone to the same level of awareness, mindset, and discipline in managing risk. With PARIMA, we have a venue to meet our peers, make connections, build collaborations, exchange ideas, learn from one another, and together grow and discover limitless opportunities in the field of Risk Management."

"I see PARIMA as a body of knowledge, and an ongoing forum for risk managers and markets to share, exchange and discuss ideas, innovations and issues. All risk managers should participate actively in PARIMA and contribute to the growth of the profession, for the benefit of the organization they work for."

Currently, risk management in Japan is still not developed to a high standard. PARIMA plays a very important role and I believe it will provide the networking opportunities and support to the community that is currently almost non-existent. This will help improve the skill and quality of risk management."
